Product Name: Vivid HD Sublimation Panel
 Chemical Family : Metal Alloy Type 3003
 Processing Method: Coated with Polyester Resin
 Product Use: Dye Sublimation and Heat Transfer Printing
 Indoor Lifespan: 20 Years +
 Quality: A Grade
 Protection Film: PE Film Both Sides

Heat Transfer Parameters:
 Temperature: 175 Degrees Celsius
 Press Time: 240 Seconds
 For Best Results: Press Face Down
 between 2 pieces of butchers paper
